

# Chem and Lube A/O

Chem and Lube has combined high quality oil with a lead free additive package to produce oil designed specifically for large size bearings in air assisted applications. This product has excellent demulsibility, resisting wash out and water intrusion. Anti scuff and anti wear packages assure bearing protection.

Formulated to produce an even coating of protection, which prevents metal-to-metal contact eliminating premature bearing wear. Extremely anti-corrosive.

Chem & Lube now adds to its high quality products, oil- bearing lubrication that provides performance with confidence.

## TYPICAL PROPERTIES

ISO GRADE	100	150	220	320	460
Viscosity, cST					
@ 40° C	95.0	138	209	300	460
@ 100° C	11.0	14.0	18.4	23.3	29.3
Viscosity SUS					
@ 100° F	495	725	1100	1600	2420
@ 210° F	63.8	75.1	93.1	116.1	142.5
Viscosity Index	98	98	97	97	95
Flashpoint, °F	440	450	505	535	510
