

BIOKOOOL 5170 COOLANT

WATER SOLUBLE, SYNTHETIC CUTTING FLUID

BioKool 5170 Coolant is a non-nitrate, synthetic, water soluble metalworking fluid for OD, ID and centerless grinding, as well as milling, turning, drilling and reaming. **Biokool 5170 Coolant** is specially formulated to perform well on both ferrous and non-ferrous metals. **Biokool 5170 Coolant** is non-foaming and provides excellent cooling, good lubricity and rapid settling of fines with exceptional corrosion protection. It contains a unique combination of Bio-Resistant additives, which encourages long sump life without the odors that are associated with rancidity.

Physical and Chemical Properties

Appearance	Clear Blue Liquid
Weight Per Gallon	9.4 lbs.

Performance Benefits

- * **Low Foaming** Designed to be low foaming, even in soft water.
- * **Cleanliness** Clear blue appearance that rejects tramp oils to maintain a clean machine and fluid.
- * **Exceptional Sump Life** Bio-Resistant additives provide for a long odor free sump fluid in central and individual sumps.
- * **Tool and Wheel Performance** Formulated with selected additives which offer longer tool and grinding wheel life than conventional metalworking fluids of this type.

** The values shown here are representative of current production. Some are controlled by manufacturing specifications, while others are not. All of them may vary within modest ranges.
