

# F.G. 1000

**F.G. 1000 Food Grade anti-seize** is formulated specifically for use at food processing plants in which contact with food may occur. This product is safe for incidental food contact.

**F.G. 1000** protects stainless steel and other alloy materials found in the food industry. Prevents seizing, galling, rust and corrosion. Lubricates stainless bolt threads while easing assembly and disassembly of metal fasteners. **F.G. 1000** has excellent water resistance. Material is a soft white anti-seize paste and is temperature resistant to 1000°F. Meets MIL-A-907-E.

**F.G.1000 contains only ingredients recognized by the F.D.A. as safe for incidental food contact, as published in 21 CFR, Parts 170-190**

## **We recommend F.G. 1000 for use on:**
