

C & L Kool Kut

Semi-Synthetic Cutting and Grinding Fluid

Description

C & L Kool Kut is a high oil content, biostatic metal cutting and grinding fluid. It is designed for use on ferrous metals, aluminum and yellow metals. Kool Kut offers excellent interim corrosion protection, tramp oil rejection, hard water stability and low foam. With the combination of biological stability, hard water stability, and tramp oil rejection, Kool Kut offers extremely long sump life with a minimum of maintenance.

Application

C & L Kool Kut is designed to be used at 3% to 5% (1: 33 to 1:19) for grinding applications or 5% to 10% (1:19 to 1: 9) for metal cutting.

Benefits

Long Life:	Biological stability, hard water stability and excellent tramp oil rejection, equals long maintenance free operation.
Worker Compatible:	Low odor, light color, mild to skin
High Oil Content:	Offers better machine compatibility
Corrosion:	Excellent corrosion inhibition at low concentrations

Typical Properties

Appearance	Amber liquid
Specific Gravity	1: 01
pH (5%)	9.8
